**Instructions for Form FCC 605 Main Form**

FCC Form 605, Main Form, is used to obtain information sufficient to identify the filer and the purpose of the filing. The Main Form is required for every application or amendment filed on FCC Form 605. Regardless of Purpose of Application, all items on the Main Form must be completed according to the instructions below.

**►Radio Service Code**

Item 1 You must enter the Radio Service Code for which the applicant is filing by inserting the appropriate two-letter code from the following list:

<b>Ship Radio Service (47 CFR Part 80)</b>	
Ship Recreational or Voluntarily Equipped .....	SA
Ship Compulsory Equipped .....	SB
<b>Aircraft Radio Service (47 CFR Part 87)</b>	
Aircraft .....	AC
<b>Amateur Radio Service (47 CFR Part 97)</b>	
Amateur .....	HA
Vanity .....	HV
<b>Commercial Radio Operators Services (47 CFR Part 13)</b>	
Restricted Radiotelephone .....	RR
Restricted Radiotelephone-Limited Use .....	RR
Commercial .....	CM
<b>General Mobile Radio Service (47 CFR Part 95)</b>	
General Mobile Radio Service .....	ZA

**►Application Purpose**

Item 2 You must indicate the purpose for which the application is being filed by inserting the appropriate two-letter abbreviation from the following list. Only one purpose may be specified. For the General Mobile Radio Service [GMRS], effective January 1, 1989, 'new' or 'major modifications' may not be filed by business applicants.

**NE - New:** To request a new license. This purpose should only be used for initial applications. A change in vessel or aircraft constitutes a need for a new license.

**MD - Modification:** To request a change in the conditions of any data for a license during the term of that license. Use Item 5 to provide the call sign of the affected station. The appropriate schedule must be completed and attached, and must accurately describe the data that has been modified. See applicable Commission rules.

**Note:** After a license is modified, the FCC will issue a new license and previous versions of the license will no longer be valid, regardless of the expiration date shown. License terms will not be extended as a result of an application for Modification.

**Note:** If the only changes desired are to administrative data, use the Administrative Update purpose instead of Modification (see Administrative Update purpose, below, for further description of administrative updates).

**AM - Amendment:** To amend a previously-filed, currently pending application(s). Use Item 4 to provide the File Number(s) of the affected pending application(s). The appropriate schedule must be completed and attached, and must accurately reflect the amended data. See applicable Commission rules.

**RO - Renewal Only:** To renew an existing authorization that has not expired and where no changes in the conditions are being requested at the time of renewal. (To make any modifications to your existing authorization use the Renewal/Modification purpose.) Use Item 5 to provide the Call Sign(s) of the affected station(s).

**RM - Renewal/Modification:** To renew an existing authorization and request a change in the conditions for that authorization. Use Item 5 to provide the call sign of the affected station. The appropriate schedule must be completed and attached, and must accurately reflect the data that has been modified.

**CA - Cancellation of License:** To cancel an existing license. Use Item 5 to provide the Call Sign(s) of the affected station(s).

**WD - Withdrawal of Application:** To withdraw a previously-filed, currently pending application(s). Use Item 4 to provide the File Number(s) of the affected pending application(s).

**DU - Duplicate License:** To request a hardcopy duplicate of an existing license(s). Use Item 5 to provide the Call Sign(s) of the affected station(s).

**AU - Administrative Update:** To request a change of any administrative data on a license. These changes are limited to the following: Changes in licensee name (without a change in ownership, control or corporate structure), and changes in name of vessel, changes in mailing address, phone number, fax number, and email address. Use Item 5 to provide the call sign of the affected station. If the administrative update is needed for multiple call signs, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 605, Schedule A.

**Note:** After a license is modified, the FCC will issue a new license and previous versions of the license will no longer be valid, regardless of the expiration date shown. License terms will not be extended as a result of an application for an Administrative Update.

**Item 3** If the filing is a request for a Developmental License or a Special Temporary Authorization (STA), enter 'D' or 'S', respectively. Otherwise, enter 'N' for Not Applicable.

In emergencies or other urgent conditions requiring immediate or temporary use of facilities, request may be made for special temporary authority (STA) to install and/or operate new or modified equipment, subject to the appropriate requirements governing Special Temporary Authorizations contained in the FCC rules. If Item 3 is answered 'S', attach an exhibit including the following information: description of the nature of the extraordinary circumstance, equipment to be used, type of operation to be conducted, explanation of how the facilities will be used, times and dates of operation, and a list of airports and/or ports that will be visited.

**Note:** Special Temporary Authorizations are applicable only to Ship and Aircraft applicants.

The FCC may grant applications for developmental authority to construct and operate transmitters for the purpose of developing a new radio service or a new technology not regularly authorized under specific FCC rules, subject to the appropriate requirements governing developmental authorizations contained in the FCC rules. Attach an exhibit(s) as required in the FCC rules.

**Note:** To file an initial request for an STA or Developmental License, applicants should select an application purpose of NE - New in Item 2 and then answer Item 3 as appropriate. STAs are granted for a maximum of 180 days. If another STA is needed, applicants may file by selecting application purpose RO - Renewal Only or RM - Renewal/Modification and supply the appropriate Call Sign in Item 5 or by selecting application purpose NE - New. The renewal purpose is provided for the convenience of the applicant (the applicant will retain the same call sign if the STA request is granted). To request a renewal of a Developmental License, applicants should select an application purpose of RO - Renewal Only or RM - Renewal/Modification and supply the appropriate Call Sign in Item 5.

Item 4 If the filing is a request for an Amendment or Withdrawal of a pending application(s) on file with the FCC, enter the File Number(s) of the original application(s). This information can be obtained by contacting the FCC at 1-888-225-5322. If the amendment or withdrawal affects multiple file numbers, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 605, Schedule A.

Item 5 If the filing is a request for a modification, renewal only, renewal/modification, cancellation, duplicate, or administrative update of an existing license, enter the Call Sign of the affected license in item 5. If the filing is a request for a renewal only, cancellation or duplicate of an existing license(s), enter the Call Sign(s) of the affected license(s) in item 5. This information can be obtained by contacting the FCC at 1-888-225-5322. If the request affects multiple call signs, complete and attach Schedule for Changes Affecting Multiple Call Signs or File Numbers, Form FCC 601, Schedule A.

Item 6 This item is optional. If the filing is a request for a New, Amendment, Renewal Only, or a Renewal/Modification, enter the requested authorization expiration date. Applicants may, if desired, request the month and day of license expiration. However, in no cases will licenses be granted for terms that exceed the license term as governed by the rules for each service.

Item 7 If the filing is requesting a Waiver or Exception of the Commission's Rules, enter 'Y'; otherwise, enter 'N'. If item 7 is answered 'Y', attach an exhibit including a statement of reasons sufficient to justify a waiver. The required showing must be made for all rule waivers desired, identifying the specific rules or policies for which the waiver is requested. Refer to the Wireless Telecommunications Bureau Fee Filing Guide for fee requirements for waivers. For assistance with fees applicable to the radio services governed by the FCC's rules, call (202) 418-0220 or 1-888-CALL-FCC (225-5322).

Item 8 Enter 'Y' if attachments (other than associated schedules) are being filed with this application. Otherwise, enter 'N'.

#### **-Applicant Information**

Items 9 through 22 identify the applicant. If an authorization is granted, the information provided will become the licensee's name, address, and telephone number of record. The FCC will send the authorization and notice of all final dispositions of an application to this address. Failure to provide the FCC with a current and valid mailing address in the United States, and the subsequent failure to respond to FCC correspondence sent to the specified address may result in dismissal of an application, and/or liability for forfeiture, or revocation of your authorization to operate a radio station.

Item 9a If Item 10 is I (for Individual), you must enter the Social Security Number (SSN) of the individual person applying in Item 11. Otherwise, you must enter the Employer Identification Number (EIN) of the entity in Item 12. This data is required to comply with the Debt Collection Improvement Act of 1996. This information will not be made available for public inspection.

Item 9b This item must be filled out if in addition to providing a TIN, you have obtained a Sub-Group Identification Number (SGIN) from the FCC. A SGIN is required in instances where the applicant or licensee does not have a unique TIN because it is a sub-group or department of the entity identified by the TIN (e.g., a governmental entity or academic institution) and therefore shares the TIN with other subgroups or departments of the same entity. The SGIN allows each sub-group to track the licenses it holds. The SGIN is not needed for entities that have a unique TIN that is not used by any other licensee.

Item 10 This item must be completed. Enter the appropriate code which indicates the legal entity type of the applicant. Enter 'I' for Individual, 'U' for Unincorporated Association, 'T' for Trust, 'G' for Government Entity, 'C' for Corporation, 'L' for Limited Liability Corporation, 'P' for Partnership, 'J' for Joint Venture, or 'O' for Consortium.

**Note:** For GMRS: effective January 1, 1989, new or major modification applications may NOT be filed by business applicants.

Items 11 and 12 If Item 10 is I (for Individual), you must enter the name of the individual person applying in Item 11. Otherwise, you must enter the name of the entity in Item 12.

Items 13-20 Enter the name, address, and telephone number of the person to whom the FCC should send correspondence. All applicants, except applicants applying for a Restricted Radiotelephone Operator Permit, must specify an address where the applicant can receive mail delivery by the United States Postal Service.

You may enter a post office box number in Item 14 or a street address in Item 15, or enter information for both items. Enter the city, state, and Zip Code in Items 16, 17, and 18, respectively. Applicants for Restricted Radiotelephone Operator Permits who do not have a United States mailing address may specify a Country in Item 19. Refer to FCC 605 Main Form Instructions, Appendix I, for a list of valid state, jurisdiction, and area abbreviations. Enter a telephone number (optional), including area code, in Item 20.

Items 21 and 22 Enter the applicant's fax number and e-mail address, if desired and available.

I am licensed to practice in the United States or its Territories as a doctor of medicine (M.D.) or doctor of osteopathy (D.O.). **NOTICE TO PHYSICIAN CERTIFYING TO A DISABILITY**

You are being asked by a person who has already passed a 5 words per minute telegraphy examination to certify that, because of a severe handicap, he/she is unable to pass a 13 or 20 words per minute telegraphy examination. If you sign the certification, the person will be exempt from the examination. Before you sign the certification, please consider the following:

**THE REASON FOR THE EXAMINATION** - Telegraphy is a method of electrical communication that the Amateur Radio Service community strongly desires to preserve. We support their objective by authorizing additional operating privileges to amateur operators who increase their skill to 13 and 20 words per minute. Normally, to attain these levels of skill, intense practice is required. Annually, thousands of amateur operators prove by passing examinations that they have acquired the skill. These examinations are prepared and administered by amateur operators in the local community who volunteer their time and effort.

**THE EXAMINATION PROCEDURE** - The volunteer examiners (VEs) send a short message in the Morse code. The examinee must decipher a series of audible dots and dashes into 43 different alphabetic, numeric and punctuation characters used in the message. To pass, the examinee must correctly answer questions about the content of the message. Usually, a fill-in-the-blanks format is used. With your certification, they will give the person credit for passing the examination, even though they do not administer it.

**MUST A PERSON WITH A HANDICAP SEEK EXEMPTION?**  
 No handicapped person is required to request exemption from the higher speed telegraphy examinations, nor is anyone denied the opportunity to take the examinations because of a handicap. There is available to all otherwise qualified persons, handicapped or not, the Technician Class operator license that does not require passing a telegraphy examination. Because of international regulations, however, any handicapped applicant requesting exemption from the 13 or 20 words per minute examination must have passed the 5 words per minute examination.

**ACCOMMODATING A HANDICAPPED PERSON** - Many handicapped persons accept and benefit from the personal challenge of passing the examination in spite of their hardships. For handicapped persons without an exemption who have difficulty in proving that they can decipher messages sent in the Morse code, the VEs make exceptionally accommodative arrangements. They will adjust the tone in frequency and volume to suit the examinee. They will administer the examination at a place convenient and comfortable to the examinee, even at bedside. For a deaf person, they will send the dots and dashes to a vibrating surface or flashing light. They will write the examinee's dictation. Where warranted, they will pause in sending the message after each sentence, each phrase, each word, or each character to allow the examinee additional time to absorb and interpret what was sent. They will even allow the examinee to send the message, rather than receive it.

**YOUR DECISION** - The VEs rely upon you to make the necessary medical determination for them using your professional judgement. You are being asked to decide if the person's handicap is so severe that he/she cannot pass the examination even when the VEs employ their accommodative procedures. The impairment, moreover, will last more than one year. This procedure is not intended to exempt a person who simply wants to avoid expending the effort necessary to acquire greater skill in telegraphy. The person requesting that you sign the certification will give you names and addresses of VEs and other amateur operators in your community who can provide you with more information on this matter.

**DETAILED INSTRUCTIONS** - If you decide to execute the certification, you should complete and sign the Physician's Certification of Disability on the person's FCC Form 605 Schedule D Part 2. You must be an M.D. or D.O. licensed to practice in the United States or its Territories. The person must sign a release permitting disclosure to the FCC of the medical information pertaining to the disability.
